| ■ Herbaceous Rangeland | ■ Orchards, Vineyards, etc. | ■ Transitional Areas |
| ■ Herbaceous Tundra | ■ Other Agricultural Land | ■ Transportation, Communications and Utilities |
| ■ Industrial | ■ Other Urban or Built-up Land | ■ Wet Tundra |

Produced by New Mexico Water Resources Research Institute, May 2006.

Base map prepared by the U.S. Geological Survey

Compiled from digital data provided by the New Mexico Resource Geographic Information System Program (RGIS). Original base maps digitized from 1:500,000 mylar sheets and 100,000 paper maps for New Mexico. These data meets National Mapping Accuracy Standards for 1:500,000 and 1:100,000 scalemaps. Shaded relief provided by RGIS and is based on 1:250,000 Digital Elevation Models (DEMs) created by the U.S. Geological Survey. Boundary of the Jemez y Sangre Water Planning Counsel is based on county lines and surface drainage divides.

Horizontal accuracy: At the scale of 1:650,000 at least 90 percent of the points tested are within 1/30th inch (0.0333 inch), or within 547 ground meters, of their true location.

Projection: Universal Transverse Mercator, Zone 13, Units meters, NAD83.
