- Intermittent Water Body
- Perennial Water Body
- Roswell Underground Water Basin

Produced by New Mexico Water Resources Research Institute
Base map prepared by the U.S. Geological Survey
Compiled from digital data provided by the New Mexico Resource Geographic Information System Program (RGIS).
Original base maps digitized from 1:500,000 mylar sheets and 100,000 paper maps for New Mexico. These data meets National Mapping Accuracy Standards for 1:500,000 and 1:100,000 scale maps. Shaded relief provided by RGIS and is based on 1:250,000 Digital Elevation Models (DEMs) created by the U.S. Geological Survey. Boundary of Lower Pecos River Water Plan Region is based on the New Mexico Office of the State Engineer (OSE) administrative groundwater basins and New Mexico county boundaries. The cadastral accuracy of the OSE administrative basins and the county boundaries were verified by the use of 1:100,000 Public Land Survey System (PLSS) from RGIS.
Horizontal accuracy: At the scale of 1:1,000,000, at least 90 percent of the points tested are within 1/500 inch (0.02 inch), or within 0.5 meter (1.6 feet) of their true location.
Projection: Universal Transverse Mercator, Zone 13, Units meters, NAD83.
